- 06 – COPYWRITING & SALES (13 prompts)
- 07 – RESEARCH & MARKET ANALYSIS (9 prompts)
- 08 – MINDSET & MAKING IT STICK (7 prompts)

HOW TO USE THIS FILE

Copy any prompt below into Claude, ChatGPT, or your AI tool of choice. Replace anything in [brackets] with your real details. That's it — no setup, no course required.

01 — TRADING & CHART READING

- I'm looking at a [monthly/weekly/daily] chart for [ticker]. Help me identify supply and demand zones and tell me how many times each has been touched.
- Given this chart, is there a fresh (0-1 touch) zone within 5% of the current price of [ticker]? If so, map out an entry, stop, and 3:1 target.
- Explain the difference between a rally-base-drop and a drop-base-rally pattern using a simple example.
- I have [stock/ETF] at [price]. Based on the last 10 daily candles, estimate the average daily range and how many days it would take to reach [target price].
- Compare the risk/reward of entering [ticker] now versus waiting for it to pull back to [price level].
- Given [ticker]'s next earnings date is [date], is it safe to hold an options position expiring [expiration date] through that event?
- Explain in plain English what implied volatility means and why it matters when buying options.
- I bought a [call/put] at [strike] expiring [date]. Walk me through what happens to its value if the stock stays flat for a week.
- Build me a simple checklist I can run through before entering any trade, based on supply and demand principles.
- Explain the concept of theta decay to someone who has never traded options before, using a real dollar example.
- Given my past 10 trades [paste data], what patterns do you notice in my win rate by zone type or timeframe?
- Help me write a personal trading rule about position sizing based on a \$[amount] account and \$[amount] max risk per trade.
- What questions should I ask myself before increasing my position size after a winning streak?
- Explain the psychological difference between cutting a loss early versus 'hoping it comes back.'
- Draft a trading journal template I can fill out after every trade to track my own patterns over time.

02 — CONTENT & SOCIAL MEDIA INCOME

- Turn this raw voice memo transcript into a polished 60-second video script for [platform].
- I make [type of content]. Give me 10 hook lines for videos that would stop someone mid-scroll.
- Rewrite this caption to sound like a real person talking, not a marketing brochure: [paste caption].

- Based on my last 5 posts [paste them], what's a consistent content pillar I could build a series around?
- Turn this single blog post into 5 standalone social posts, each with a different angle.
- I want to sell [product/service]. Write 3 different content ideas that don't feel like a sales pitch.
- Give me a week of content ideas for someone in [niche] who has 30 minutes a day to create.
- Draft a content calendar theme for the next 4 weeks around [topic/launch].
- Rewrite this script to be shorter and punchier without losing the core message: [paste script].
- What's a controversial (but true) opinion I could share in my niche that would spark real engagement?
- Turn these bullet points into a story-driven caption: [paste bullets].
- Give me 5 ways to repurpose one long-form video into short-form clips.
- Write a content hook using the 'nobody talks about this' framing for [topic].
- Draft an Instagram bio for someone who does [what you do] and wants to attract [specific audience].
- Help me write a pinned comment that turns viewers into email subscribers.

03 — FREELANCE & SERVICE BUSINESS

- Write a cold outreach email to a potential client in [industry] offering [service], under 100 words.
- I do [service]. Help me write 3 proposal options at different price points for a client who wants [project].
- Draft a follow-up message for a prospect who went quiet after our first call.
- Write a script for a discovery call that uncovers a client's real budget without asking directly.
- Help me turn this list of client complaints into a services page that speaks to their pain points: [paste complaints].
- Draft a polite way to raise my rates with an existing client without losing them.
- Write an onboarding email sequence for a new client after they sign a contract.
- I got scope-creeped by a client. Help me draft a message that resets expectations professionally.
- Turn this client testimonial into 3 different formats I can use across my website and social media.
- Draft a referral request message I can send to past clients who were happy with my work.
- Help me price a package deal combining [service A] and [service B] for a client who wants both.

- Write a case study outline for a project where I got [specific result] for a client.
- Draft a 'we're not a fit' email for a lead who wants something outside what I offer.
- Help me write a simple contract clause protecting my time for scope changes mid-project.
- Write an email announcing a new service offering to my existing client list.

04 — E-COMMERCE & PRODUCTS

- Write 3 product description variations for [product] targeting [specific customer type].
- Help me write an abandoned cart email sequence that doesn't sound desperate.
- Draft a product launch email announcing [new product] to my existing list.
- I sell [product]. Write FAQ answers for the 5 most likely customer objections.
- Help me name a new product in the [category] space that feels premium but approachable.
- Write a comparison chart script between my product and the 'do nothing' option (staying with the problem).
- Draft an Amazon/Etsy listing title and bullet points for [product], optimized for search.
- Help me write a post-purchase email that reduces returns by setting the right expectations.
- Write 3 upsell offer ideas for someone who just bought [product].
- Draft a win-back email for customers who haven't purchased in [timeframe].
- Help me write packaging insert copy that encourages customers to leave a review.
- Write a product bundle description combining [product A] and [product B] at a bundled price.
- Draft a restock announcement for a sold-out product that builds urgency without gimmicks.

05 — AUTOMATION & AI TOOL BUILDING

- I want to build a tool that does [specific task]. What's the simplest version I could build in one session?
- Explain what an API is to someone who has never coded, using a real-world analogy.
- I have this idea: [describe idea]. Break it down into the 3 smallest features I should build first.
- Help me write a prompt that extracts structured data from a screenshot of [type of document].
- What free or cheap data APIs exist for [industry/use case]?
- Draft the plain-language spec for a tool that automatically [task], so I can hand this to an AI to build.

- I built [feature]. What's the next logical feature to add based on how people would actually use this?
- Explain the difference between a database and a spreadsheet for someone deciding which one they need.
- Help me think through what could go wrong (edge cases) if I build a tool that does [task].
- Write a simple onboarding flow for a tool that helps people do [task] for the first time.
- What's a reasonable price to charge for a tool that saves someone [X hours] per week?
- Draft a one-paragraph pitch explaining what my tool does to someone with zero context.
- Help me figure out if my tool idea needs user accounts/login, or if it can work without them.
- I want my tool to send automatic reminders. What's the simplest way to build that in plain language?

06 — COPYWRITING & SALES

- Write a sales page headline for [product/service] that leads with the outcome, not the features.
- Draft 3 subject lines for an email announcing [offer], each with a different emotional angle.
- Rewrite this sales copy to sound less like an ad and more like a friend explaining something: [paste copy].
- Help me write an objection-handling FAQ for the price concern on [product/service].
- Draft a 'last chance' email for an offer closing in [timeframe] that doesn't feel manipulative.
- Write a testimonial request message that makes it easy for happy customers to say yes.
- Help me turn these features into benefits a real customer would care about: [paste features].
- Draft an email sequence for someone who downloaded my free resource but hasn't bought anything yet.
- Write a landing page outline for [offer] following a clear problem-agitate-solve structure.
- Help me write a guarantee statement for [offer] that removes risk without over-promising.
- Draft a re-engagement email for subscribers who haven't opened anything from me in [timeframe].
- Write 3 ways to explain [complex topic] using a simple, relatable metaphor.
- Help me shorten this long sales page into a punchy one-page version: [paste copy].

07 — RESEARCH & MARKET ANALYSIS

- Summarize the current state of [industry/niche] in plain language, including who the major players are.
- What are 5 underserved problems people in [niche] complain about that nobody has solved well?
- Help me compare [competitor A] and [competitor B]'s pricing models and what that tells me about the market.
- What questions should I ask potential customers in [niche] to validate a new idea before building it?
- Summarize recent changes in [industry] that could affect how I position my offer.
- Help me identify 3 adjacent markets my current customers might also need help with.
- What's a realistic price range for [type of service] based on what similar providers charge?
- Draft 5 survey questions to send past customers to understand what almost stopped them from buying.
- Explain who my ideal customer for [product/service] actually is, based on these details: [paste details].

08 — MINDSET & MAKING IT STICK

- I keep starting projects and not finishing them. Help me design a simple weekly check-in system to stay accountable to myself.
- Write an honest, non-toxic-positivity pep talk for someone who just had a rough week trying to build something new.
- Help me reframe this specific failure into a lesson I can actually use: [describe what happened].
- What's a reasonable definition of 'progress' for someone in month one of a new income stream, so I stop comparing myself to people years ahead?
- Draft 3 questions I should ask myself before quitting something I've only tried for [short timeframe].
- Help me write down what 'good enough to ship' looks like for my current project, so perfectionism doesn't stall me.
- One year from now, what would I want to tell myself I wish I'd started today?
